

# Enhance opportunities and achieve objectives

# Expand your business offering

The SureColor SC-F Series printers offer versatile production options so you can provide a wider range of services. These printers won't just meet corporate requirements, they can also create fun, flexible and profitable one-off pieces, such as customised pencil cases or drink bottles.

Where space is at a premium, the compact SC-F100 is a reliable A4 dye sublimation printer that offers a low total cost of ownership and fast turnaround times. For large-format capabilities in a compact 24-inch design, the SC-F500 is the printer to choose. And its sister product, the SC-F501, supports stunning fluorescent yellow and fluorescent pink inks, allowing you to offer even more choice.

These printers offer a complete business solution, developed entirely in-house by Epson to deliver innovation at every level. Ideal for promotional applications, superior textiles and soft signage for a wide range of industries.

## Ease of use

Wi-Fi, with 4.3-inch touchscreen and optional Epson Edge Print support

## Practical

Compact 24-inch print width with roll and sheet media feed, intelligent print delivery and optional stand

## Cost effective

Built-in accounting tool keeps you in control of your cost per design, so you can maximise your profits

# Simplify your workflows for greater efficiency

The compact printers help you to make the most of your workspace, while also enhancing workflows. These space-saving printers are packed with features to save you time, increase productivity and make the process easier.

## The Whole Range

### Ink supply solution

Significantly reduce downtime and minimise the risk of errors with user-friendly, colour-coded 140ml ink bottles. What's more, with both the SC-F500 and SC-F501, you can replenish the ink while printing.

### SC-F100

#### Compact size

Where space is limited, such as on shop counters, the small A4-sized footprint of the SC-F100 is the ideal choice, especially for start-up and smaller businesses.

### SC-F500 and SC-F501

#### Easy to use touch panel

Easily access all the operational information you need using the intuitive touchscreen, even while wearing gloves.

#### Anti-dust design

The anti-dust design prevents dust getting into the printer, avoiding misprints from nozzle clogging and reducing time-consuming cleaning cycles, even in dusty environments.

#### Bright colour choices

Create eye-catching designs that stand out from the competition. With the SC-F501, fluorescent yellow and fluorescent pink inks are available.

#### Head guard

The onboard head guard prevents the delays and costs caused by a media crash with the printhead.

### SC-F100

#### Ease of use

Wi-Fi, with 2.4-inch screen, which is easy to view from any angle

#### Practical

Paper is loaded from the front and can hold up to 150 sheets.

## Applications

### Promotional items and one-off gifts

Whether you're printing mugs, key fobs or personalised photo gifts like phone covers and pencil cases, the SureColor SC-F Series helps you streamline production and minimise wastage.

### Textiles and clothing

Ideal for low-volume production of customised products such as tote bags, cushion covers and scarves.

## Epson Cloud Solution PORT

Like all of Epson's higher production models all these printers are supported by Epson Cloud Solution PORT. Epson Cloud Solution PORT is a cloud based system where you will be able to monitor equipment or several printers and manage costs and production planning.

# Switch to uncompromising quality

Ideal for producing small promotional goods on hard substrates and textiles, the SureColor SC-F500, SC-F501 and SC-F100 are compact dye sublimation printers that don't compromise on quality or performance.

Our range of innovative Epson products is designed with you in mind. Through a continuous dialogue with our customers, we understand what's important to you and ensure that the development and manufacture of our products meets your needs.

Epson's core technologies are designed to work together seamlessly to deliver high-quality, reliable results. For extra reassurance, we also provide a one-year warranty.

## Keep compliant

For peace of mind, the Epson package includes hardware, software, media, warranty, and inks that comply with safety and environmental legislation, including OEKO-TEX certification.
